

# STRETCH RACK

Maximize your storage capacity with a two-tier bike parking solution that allows you to store double the bikes in a given space. With locking and non-locking options and a space-saving vertical stagger, the Stretch Rack offers a versatile, ultra-dense, long-term indoor parking solution for apartments or other environments where space is limited.

## Product Specifications

- Rack can be easily lined up side to side or back to back for larger installations
- Staggered bike position saves space and eases clearance between bikes
- Does not require anchoring (wall or floor)
- Simple bolt-together design for easy installation

# Stretch Rack
